

Important files to backup

Important files to backup!

When you are going to rebuild your computer or load a new install of bend-tech here are the file which are important to save off.

material.txt - in your "data" directory

tooling.txt - in your "data" directory

rk.fil - in your bend-tech directory

parts - this is in your bend-tech directory and contains your parts and/or assemblies

These above files and directories reside in your bend-tech directory:

c:\program files\2020ssi\bend-tech????

or

c:\2020ssi\bend-tech ????
