

Mirror a Part

Step 1) Select the part from the "**Master Part List**" you wish to mirror.

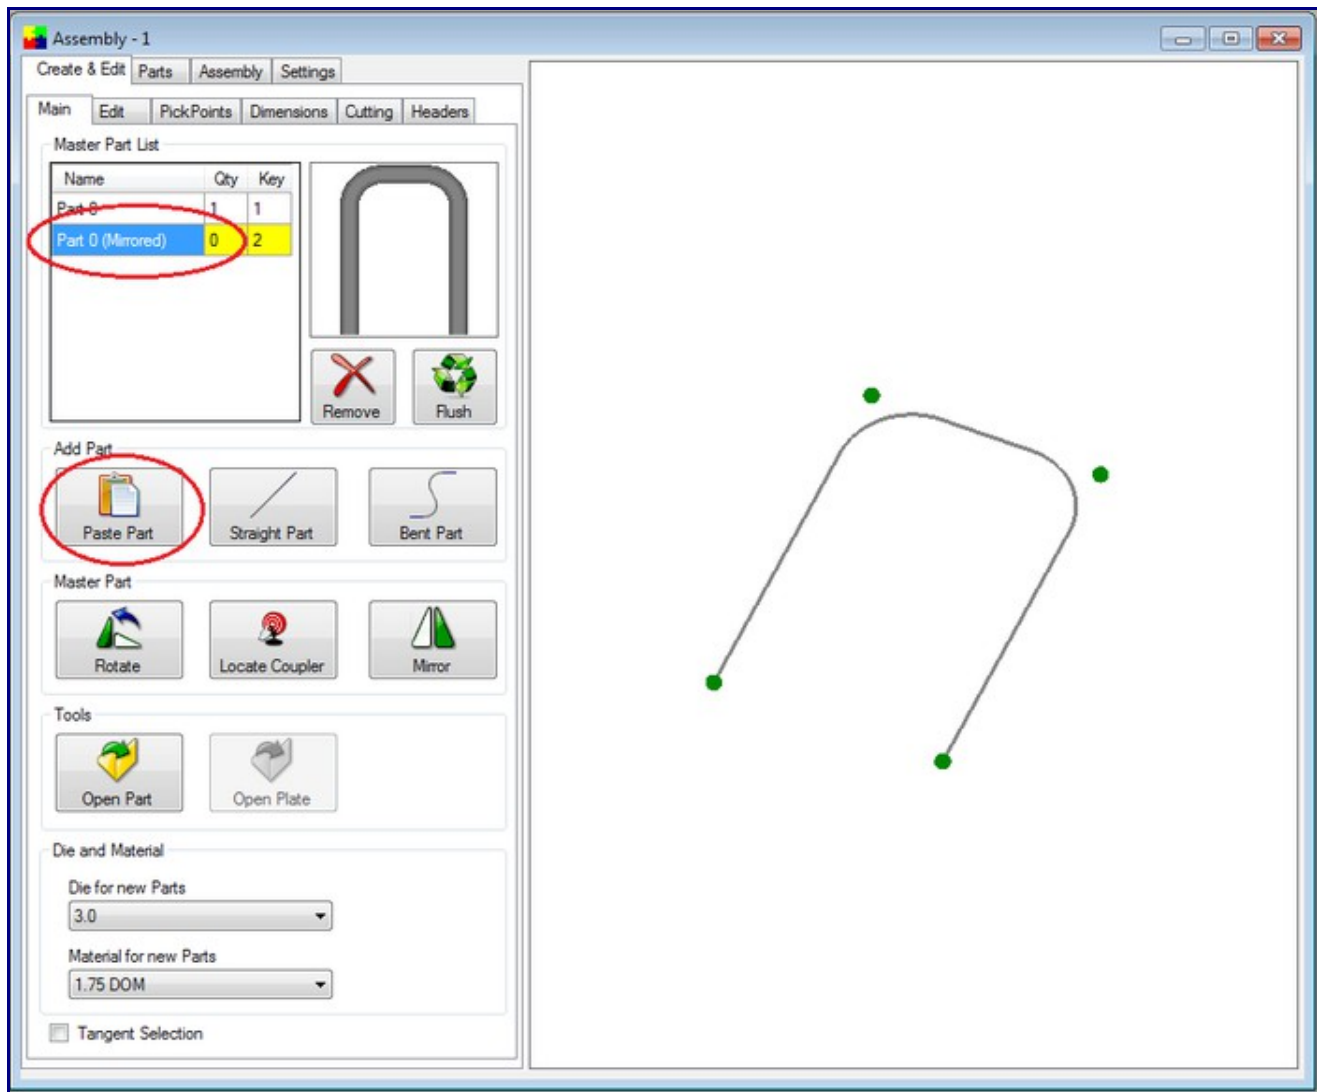

Step 2) Select the "**Mirror**" command button.

Step 3) Select the mirror direction that best describes your part and click the "**Submit**" button. It will be added to the Master Part List.

- Step 4) **Select the part** from the Master List.
- Step 5) Select the "**Paste Part**" command button.
- Step 6) Select the **PickPoint** to attach the part.

Note: The attach point is the same as the start feature when the part was created.
