

The Simulation Viewer Buttons

"**Play**" will begin playing the simulation with the current settings and at the current speed.

"**Pause**" will pause the simulation at its current location.

"**Restart**" will set the simulation back to the beginning.

"**Finish**" will move the simulation to the end.

"**Forward**" will move the simulation to the very end.

The "**Save**" button will bring up the "Save As" window and allow you to save a bitmap image of the currently displayed frame.
